Dementia strategy

Thornton Hall & Lodge has an environment that is supportive and stimulating for those living with dementia:

- Themed areas within the home, such as a village street along the corridor, a cinema room or a beach scene with photographs and tactile objects to encourage interaction
- Brightly coloured bedroom doors and photographs to support residents
- Enhanced signage to improve independence
- Handrails painted in contrasting colours
- Bespoke crockery to support residents to distinguish foods and to encourage eating and drinking.

Making our home your home

The residents at Thornton Hall & Lodge are at the heart of what we do, and we are proud to have a great team delivering highly personalised care in the most professional way, and with the utmost kindness.

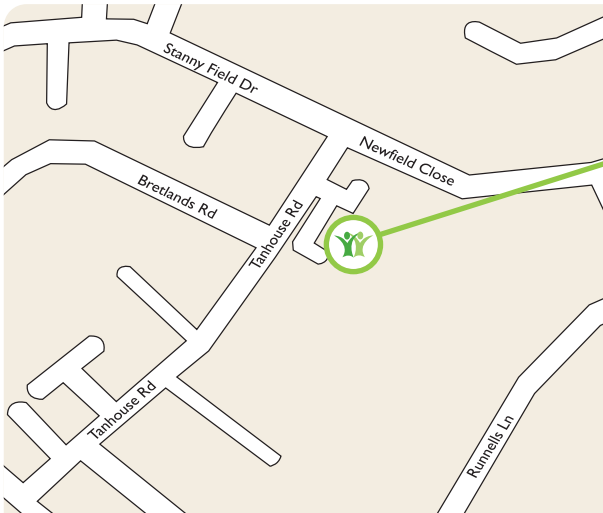

Our job is never more rewarding than when our residents and their relatives tell us they feel at home with us. The team works hard to provide a service that is personal to each resident, while encouraging a healthy, safe and enriching lifestyle.

Respite care

Thornton Hall & Lodge also offers respite care, enabling you or a carer to have a break and some well deserved rest and recuperation while we do the rest. You may want your loved one to experience living here for a short while before deciding to make the move more permanent. And we are happy to discuss your needs at any point.

We look forward to discussing
your needs with you
