Our activities plans are designed to allow the maximum choice of daily activities from relaxing in our quiet lounges and gardens, playing games with friends, karaoke, exercising, baking or simply enjoying some good company in our lounges and TV room.

We have a full range of daily activities and events arranged by our staff. The choice to join in is of course, yours. Occasional bus trips and outings are organised as well as visiting entertainers.

We're always open to new ideas so if you've any suggestions for activities or events, please don't hesitate to let us know.

MEALTIME EXPERIENCE

We believe that everyone deserves a nutritional, well-balanced meal and we cater for a wide range of dietary needs. We have a talented kitchen team in each home, led by a qualified cook, who uses quality, locally sourced, seasonal ingredients.

Whether it's a home-made pie or a fresh fruit sponge, our cooks pride themselves on catering to the tastes of our residents. We provide a varied menu with a selection of choices for all our residents, including snacks and fresh fruit which are available throughout the day.

We know how important freshly prepared, wholesome meals are to our residents and ensure that their dietary needs are met by working together to discover their needs and preferences. If you have any specific dietary requirements, please speak to the home about how we can tailor the mealtime experience for you.

OUR CARE

We have many years' experience of working in elderly and specialist care environments and we understand how best to meet your needs. Our focus is to provide care of the highest quality on a long-term or short-term basis, and in comfortable, welcoming and homely surroundings.

Our dementia care offers 24-hour support to those who are living with dementia and need assistance with everyday living, including support with personal care, daily living tasks and general care to ensure their happiness and wellbeing.

Similarly our dementia nursing care is designed to support residents who are living with dementia and who have complex health needs that require care and support.

Reconnect is an exciting and innovative person-centred approach to caring for people with dementia. Our team of highly-trained dementia specialists take time to get to know each person, from their favourite food and musical tastes to what they enjoy.

Working with you, your family and friends, we develop a person-centred, detailed care plan.

MAKING OUR HOME YOUR HOME

The residents at Green Park are at the heart of what we do, and we are proud to have a great team delivering highly personalised care in the most professional way, and with the utmost kindness that treats each resident with the dignity and respect they deserve.

Our job is never more rewarding than when our residents and their relatives tell us they feel at home with us. The team works hard to provide a service that is personal to each resident, while encouraging a healthy, safe and enriching lifestyle.

Residents' bedrooms are beautifully decorated with modern and bright fittings and furnishings throughout and are also equipped with Nurse call facilities.
